## Become a Candidate for the OLP

The Ontario Provincial Election is less than 3 months away and we are looking for candidates to run in ridings across the province. This is going to be a crowded election with a few new Ontario parties in the mix, but only the Ontario Libertarian Party is running on the same principles that were established in 1975 when the party was created.

According to the Election Act, every person is qualified to be a candidate who, at the time of signing the consent to nomination,

- (a) is of voting age;
- (b) is a Canadian citizen;
- (c) has resided in Ontario for the six months preceding polling day; and
- (d) is not disqualified by the Legislative Assembly Act or by any other Act. R.S.O. 1990, c. E.6, s. 26 (1).

No person who has been engaged as a returning officer, election clerk, revising agent or revision assistant at the revision of any list of electors to be used at the election, is eligible as a candidate. R.S.O. 1990, c. E.6, s. 26 (2); 2010, c. 7, s. 18.

The Election Act can be found at the following link: <https://www.ontario.ca/laws/statute/90e06#BK86>. The rules for whom may be a candidate can be found in subsection 26(1) and 26(2).

We will help you prepare your paperwork and get ready for debates if you would like to be an active candidate. Make sure you check with your workplace first in case you need to take a leave of absence to run as a candidate.

## Why the Last 2 Years Happened – The State of Freedom Denied

This year we have an election in Ontario, and if you go back to 2018 and the resignation of Patrick Brown and the installation of “For the People” Doug Ford Campaign... it is hard to imagine how Ford could have done any worse than a Wynne Government.

But here we are, he has been worse than Wynne, on a magnitude of scale that is unimaginable...from a conservative government.

Why? Because the People haven't figured out they are not free, they have NO power, they have NO authority over personal bodies, business operations, healthcare, education, freedom of movement. How did we allow this happen? Loss of Freedoms and rights and total state control over every aspect of daily living! At one time not less than 40 years ago, none of these authorities existed over your rights, and they have all been taken, slowly, insidiously one slice at a time.

The purpose of the lockdowns could not exist without state controls to impose them. The purpose of the lockdowns was to protect the healthcare systems, which has failed to meet the needs of the people. The Liberals, Cons, NDP or Greens have no interest in fixing the problem, instead they will apply another band aid fix, and sell it as an election promise...like the last 40 yrs.

We have a Plan – Freedom of Choice, which primarily relies on devolving as much power from the centralized state to protect your right to choose. It doesn't mean destruction of socialized services – it simply provides more options across all contrived and regulated public services. Most importantly, it decentralizes the state authority to allow for better more efficient regional authorities.

In this 5 year process we will have real measurable objectives and goals, to track the progress of better outcomes. It will take your involvement, your effort, your time and your money to make this happen, but we will make it happen.

## Freedom of Choice Platform

***The word Freedom is being attached to everything from convicts to vaccine choice, but the Ontario Libertarian Party is making it the central tenet of their 2022 election platform. For us, the word has far-reaching impacts across all aspects of our lives.***

I believe that Principles Matter when considering how public policies affect Ontario's citizens, and that Freedom of Choice for every citizen defines a true democracy.

Libertarians have been known for half a century as Champions of Democracy by our unwavering defence of Individual Property Rights and our commitment to Do No Harm to our fellow citizens.

Good principles for public governance transcend political partisanship and rightly belong to every citizen. The following Four Principles for Civil Society have inspired my vision for a unified and prosperous Ontario.

**INDIVIDUAL FREEDOM** – This refers to the Freedoms of Choice for all citizens as laid out in Canada's Charter of Rights and Freedoms.

**PERSONAL RESPONSIBILITY** refers to the idea that, with Freedom, comes the Responsibility to do no harm to others, just as you expect them to do no harm to you.

**RESPECT** must be mutual. Genuine respect is earned and cannot be coerced by force. If public leaders want respect from our citizens, then they must also demonstrate their respect for us.

**FAIRNESS** in this context refers to the dispensation of justice to be equally applied to everyone under unbiased laws, regulations and their enforcement.

By supporting us, you too will demonstrate your agreement that these values offer excellent guideposts for a united and prosperous Ontario.

## Should Political Parties Be Subsidized?

**Should an NDP supporter subsidize the PC's?**

**Should a Green Party supporter subsidize the NDP?**

**Should anybody subsidize the Ontario Liberals?**

If you said "No" and that "All monies generated by political parties should come from personal membership fees and private donations" then you should give the Ontario Libertarian Party a closer look. We are the province's largest privately funded political

party and we receive no subsidies of any kind from any level of government.

As part of their platform for election in 2018, the PC's ran on ending the per vote subsidy. This subsidy takes money from your pocket, and forcibly and without your consent, redistributes it to the coffers of these parties. Unsurprisingly, the PC's reneged on this promise because like hogs at the trough the thought

of a free lunch funded by you the working-class voter was too appealing to pass up.

The NDP, Greens, and Liberals offered no resistance since they have been always looking for their next free lunch at your expense.

Only the Ontario Libertarian Party stands opposed to this subsidy and immoral redistribution of wealth from working-class folks to political organizations with millions of dollars to begin with.

This "political welfare" must come to an end and the end must come in 2022. If you agree please join or support the Ontario Libertarian Party with a yearly membership fee of \$10.00 and tax-deductible donations. Your support is greatly appreciated because it is YOUR support and made freely by you. Not forced upon you by the state.

# The BULLFROG and his TOADIES

The Fraser Institute is Canada’s most respected Conservative think tank. This review highlights just a few of Justin Trudeau’s infamous decisions which have harmed the international reputation of Canada as a place to invest, live and raise a family.

Justin has become the butt of jokes and disdain by millions of Canadians and foreigners who have been paying attention to the TruckersForFreedom2022 protest. It showcases the Prime Minister’s willingness to violate the Charter Of Rights and Freedoms and use his bribed Big Media toadies to promote propaganda designed to lull the public into believing that his actions were necessary and righteous.

Mass hypnosis (aka ‘mass formation’ described by Dr. Mattias Desmet) in the population, achieved through long term and persistent fear-mongering, has worked brilliantly for Justin and his fawning entourage of Big Media stooges. Fortunately, a sizeable portion of the population has turned off the CensorTech channels for news and entertainment and become patrons of the growing number of FreedomTech channels. This trend continues to awaken many formerly hypnotized citizens

from their stupor of non-critical obedience to ‘official’ narratives.

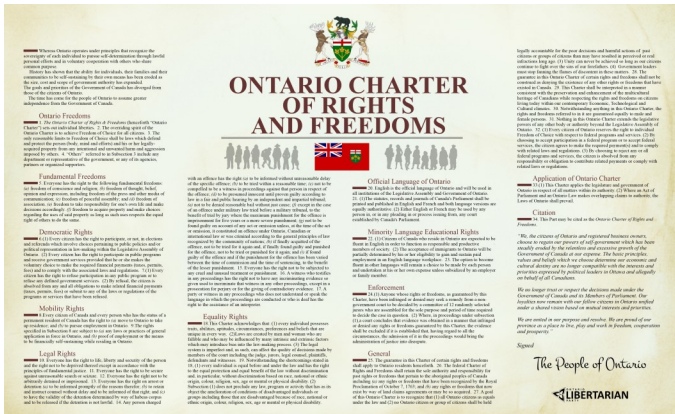

May this ‘awakening’ trend gain momentum quickly. It offers our only hope to restore Canada to a state of Individual Freedom, Personal Responsibility, Fairness under unbiased laws, and mutual Respect between our citizens and the leaders of government institutions.

The TruckersForFreedom2022 has been the first significant Moment Of Awakening by the masses and a promising catalyst for positive change. Real and lasting change, however, is now in the hands of the voting public. The outcome of future elections will tell the tale of if -and-when the majority of voters have truly ‘awakened’, or whether Mass Formation will continue to succeed as Trudeau’s strategy of choice to increase his control over this nation.

### Open Positions on the Executive

Since the convention in October, we have been trying to fill a few positions on the OLP Executive. Our current vacancies include:

- Vice Chairperson
- Recording Secretary
- Chief Financial Officer (currently being filled by Jim McIntosh until we can find a replacement)
- Ethics Committee (1 vacant position)

The time commitment for these positions varies. At minimum, you must attend the monthly Executive Meetings (normally the first Monday evening of the month via video conference, typically 1-2 hours in length).

We are also looking for election volunteers. We need people who can collect nomination signatures in all ridings and help distribute signs and campaign literature for active candidates. Time commitment will vary.

If you would like to volunteer your time in other ways please let us know what specifically you would like to do. Contact [info@libertarian.on.ca](mailto:info@libertarian.on.ca).
